## Expression of Interest

### POSTDOCTORAL POSITION

**BASIC RESEARCH CENTER, BIOMEDICAL RESEARCH FOUNDATION, ACADEMY OF ATHENS**

**Position available:**

Postdoctoral position, Full Time. Funded by RIF, Cyprus.

**Position objective:**

Understanding transcriptional regulation of globin genes and erythropoiesis to treat hemoglobinopathies.

**Essential Education, Experience, Skills:**

Candidates should have:

- PhD degree in Molecular Biology or Molecular Medicine or other related Life Sciences degree and more than 5 years experience in Basic Research Laboratories.
- Experience in molecular biology techniques (ChIP, recombinant DNA techniques-cloning, RT-PCR, Western blotting, immunoprecipitation, cell culture, transfections, immunofluorescence) and computational pipelines for the analysis of ChIP-seq, RNA-seq and proteomics data.
- Publications in peer-reviewed international journals.

Candidates should also be able to:

- Independently initiate, direct and execute scientific research.
- Critically analyze data.
- Supervise students in their daily experiments.

The call of interest for the position will be announced in [www.bioacademy.gr](http://www.bioacademy.gr). Interested candidates should send their CV together with the names of three referees to Dr. Eleni Katsantoni ([ekatsantoni@bioacademy.gr](mailto:ekatsantoni@bioacademy.gr)).
